FIELD SEEDS FOR FALL SOWING

Sow all your grain, such as Rye, Oats and Wheat in September and October; even November plantings do well. Cover and pasture crops such as Crimson Clover, Vetch, Burr Clover should be sown in September and through October. Don't put it off. Alfalfa, Red Clover, Alsike, Timothy, Red Top and other grasses do best when sown in the fall.

All prices are for immediate acceptance and subject to market changes, F. O. B. Elizabeth City. However, we will protect these prices as long as we are able to do so. If you order any seeds by parcel post be sure to include money for postage.

Our Annual Catalog will tell you how much to sow and when to sow. Get a copy; it's free to all customers.

PERMANENT PASTURE

A permanent pasture is one of the very best paying investments that can be made on the farm. After careful experiment, the State Agricultural Experiment Station recommends the following as the best mixture for this section: 8 lbs. Orchard Grass, 8 lbs. Red Top, 8 lbs. Italian Rye Grass, 8 lbs. Alsike Clover, 4 lbs. Red Clover, 4 lbs. White Clover. Total seeding per acre, 40 lbs. For surest and best results should be sown in the fall. Try it.

True Blue Imported and Domestic Bulbs--Buxton White Seed Co., Elizabeth City, N. C.

Hyacinths

The Hyacinth is so well and favorably known that it is unnecessary to give any detailed description of its broad upright spike or truss thickly set with bell shaped flowers of beautiful wax-like texture. It succeeds well in either the house or garden, adorning both with varied colors and delicious fragrance of its showy flowers. Its culture is very simple, failure being almost impossible.

Top Size Exhibition

Comparatively few bulbs of this quality come into this country. They are the very finest, extra large, solid "Mother Bulbs," and should not be confused with those often sold as "Exhibition Size," which the Hollanders consider a second size. To all who wish the finest blooms we recommend these exhibition bulbs.

Our list follows—each one is a gem—no poor or indifferent ones—all large bulbs:

Gertrude. Rosy pink, large compact spike. A first-class variety for forcing, and being of the erect habit it is very useful for bedding.

Lady Derby. Vivid pink, fine spike of large waxy bells. Forces easily. One of the finest pink Hyacinths.

La Victoire. Brilliant red, large, well-shaped spike, splendid flower. Forces easily and early. An exhibition variety.

L'Innocence. Pure white, well formed spike. Early and excellent for forcing, also recommended for bedding.

Grand Maitre. Deep porcelain blue, broad, well formed spike. Recommended for forcing and bedding.

Queen of the Blues. Light blue with silvery appearance, large splendid flower. An exhibition variety of great merit. Excellent for forcing and bedding.

Lord Balfour. Purple lilac, large spike and bells. Forces early and easily.

Yellow Hammer. Pure golden yellow, fine broad spike. One of the best yellows for forcing and bedding.

Price of Top-Size Bulbs: 25c each; \$2.50 per doz.; \$20.00 per 100.

Hyacinth.

First Size

These bulbs are in every way strictly first class and will give perfect satisfaction for either forcing or bedding. This size is often sold as "Exhibition Bulbs," but is slightly smaller than the Exhibition or Top-Size listed above. Varieties same as described above.

Price of First-Size Bulbs: 20c each; \$2.00 per doz.; \$15.00 per 100.

Bedding Hyacinths by Color

Our bedding Hyacinths are unexcelled for use where an effective display is wanted in the open air, and are of such superior quality as to be entirely satisfactory to florists and others who use large quantities for forcing. They comprise the finest shades of color and must not be confused with cheap mixtures sometimes offered for outdoor planting. Offered in the following separate colors:

PURE WHITE	PURPLE
BLUSH WHITE	LIGHT BLUE
LIGHT PINK	DARK BLUE
BRIGHT ROSE	YELLOW
DEEP ROSE	

Prices: 15c each; \$1.50 per doz.; \$10.00 per 100.

Early French Roman Hyacinths

Roman Hyacinths excel all other varieties for forcing in the house, being among the most easily cultivated and most satisfactory of flowering bulbs. The white variety blooms earliest and should be forced slowly. The others require about two weeks longer in forcing and make a most graceful, fragrant and early flower for outdoor planting. Offered in the following separate colors:

PINK WHITE BLUE
Prices: 15c each; \$1.50 per doz.; \$10.00 per 100.

Roman Hyacinths.

Freesias

These are most fragrant and can be easily forced, being adapted to house culture only. The flowers last a long time and are exceptionally valuable for cutting. For succession of bloom plant at intervals of about two weeks.

Freesia.

Narcissi and Daffodils

(AMERICAN GROWN)

Daffodils are not particular as to soil and will thrive for a number of years in ordinary soil. They are, with few exceptions, suitable for naturalizing, and, while preferring partial shade, will thrive in full sun exposure.

As the Government has stopped the importation of Daffodils from Holland, we will have to rely on American production in the future. The effect of the embargo on prices cannot be accurately estimated, and we therefore reserve the right to change present prices without notice. We will supply the very best grade of bulbs that can be obtained under the conditions.

Polyanthus Narcissus

(Especially Valuable for Indoor Forcing)

The great desire of those who buy bulbs for winter blooming indoors is to have a generous supply in full bloom during the Christmas holidays. Many disappointments are due to the effort to force such bulbs as Dutch Hyacinths, Tulips and Daffodils into too sudden bloom.

Below is listed the extra early blooming bulbs (except Early French Roman Hyacinths, listed under Hyacinths) which can be depended upon for quick forcing in the house.

Any body can grow them successfully, by carefully following the instructions sent with each order, and have a continuous supply of beautiful, fragrant flowers in the home from December to March.

Crocus

Crocuses

Among the earliest to bloom in the spring is this beautiful little flower. Its funnel-shaped flowers borne erect from grass-like leaves. Most showy when planted in large beds, but very desirable effect is produced by setting crocuses here and there over the lawn. Crocuses are also easily flowered in the house during winter in pots of soil or shallow bowls of bulb fibre.

Pearl Chips

Very beautiful Mother of Pearl Pebbles, used for growing bulbs in water and for aquariums. 10c per lb., postage extra.

Peony.

Tulips

The great variety of dazzling colors, in every conceivable combination, makes the Tulip the most popular of the spring-flowering bulbs. By planting bulbs of the different classes, a display of bloom may be had for several weeks, beginning first with the early-flowering section and ending with the Darwins.

Single Early Tulips

The Single Early Tulip is one of the most attractive and popular spring-blooming flowers for garden borders and for bedding. Most of those named below are equally valuable for pot culture indoors.

Ornamental Hedge Plants

Ornamental hedges are fast replacing the old wood and iron fences for boundary lines. They add much to the appearance of the home, increasing its beauty from year to year. Japanese Barberry and Privet are the most satisfactory varieties for this purpose.

Barberry (Berberis Thunbergii). Produces natural effect. Requires very little trimming. Described under Hardy Shrubs. Two-year plants, 12 to 18 inches, 100 for \$20.00.

Amoor River Privet. Compact habit, small leaves, remains ever green. 12 to 18 inch plants—100 for \$5.00; 18 to 24 inch plants—100 for \$7.00.

California Privet. Vigorous grower, retaining leaves late in winter. 12 to 18 inch plants—100 for \$4.00; 18 to 24 inch plants—100 for \$6.00.

Hardy Climbing Vines

Nothing adds more to the attractiveness of any home than a few well selected hardy vines. For porches, arbors, etc., and indispensable for hiding outbuildings and unsightly places.

NOTE.—These offerings by no means represent all the kinds of seeds we handle. If there are seeds, not quoted herein, that you would like to plant this fall, we would like to have the privilege of quoting you. Tell us the varieties and quantities wanted or send for a copy of our complete catalog. It's free on request. Don't fail to order your free copy of our 1927 Seed Annual, ready in January.

True Blue Evergreen Mixed Lawn Grass

Nothing adds more to the external attractiveness of a home than a beautiful lawn, and fall is by far the best season to sow lawn grass. See our catalog for full instructions. We feel fully justified in stating that this is the best Lawn Grass procurable at any price. It is better adapted to the different soils of the South, and stands the heat and drought of summer as well as severe cold better than the various mixtures so commonly offered. Nothing but the choicest, cleanest and heaviest seeds go into it. Postpaid—Lb. 55c; 5 lbs. \$2.35; 10 lbs. \$4.50. Not prepaid—Lb. 45c; 5 lbs. \$2.15; 10 lbs. \$4.25; 25 lbs. \$10.00; 100 lbs. \$38.00.

For lack of space and because they are not suited for mailing, Evergreens have been largely omitted. However, we are in position to supply all kinds, including Rhododendrons, Azaleas, Conifers, etc. If you don't see what you want, ask for it. We can supply you.

Hardy Flowering Shrubs

Every home should be surrounded by a carefully selected assortment of hardy shrubs. By this means a continual succession of flowers may be had throughout the season. Once established, they require little attention, increasing in size and effectiveness from year to year. The following list has been carefully selected with great care and contains only varieties of real merit.

Strong, field grown, well rooted, dormant plants, shipped direct from the Nursery; customers paying transportation charges. Prompt deliveries from October to June.

Price, except where noted, each 50c; dozen \$5.00.

Abelia Grandiflora. Probably the most popular of evergreen shrubs, sometimes called the "Mayflower Shrub," being covered with clusters of tubular shaped white flowers tinged with pink from May until frost. Bushy plants. Each 75c; dozen \$7.50.

Althea (Rose of Sharon). Large showy double flowers, July to October. Colors Red, White, Pink and Blue.

Berberis Thunbergii (Japanese Barberry). Of dwarf bushy habit. Fragrant yellow flowers followed by red berries which remain all winter.

Buddleia variabilis (Butterfly Bush). Long spikes of lilac-purple flowers from midsummer till frost.

Calycanthus floridus (Carolina Allspice or Sweet Shrub). Flowers of a rare chocolate color, with delightful odor.

Cape Jasmine (Gardinia florida). Evergreen shrub of medium growth, with large glossy foliage and white waxlike flowers. Each \$1.00; doz. \$10.00.

Cornus Florida (White-flowering Dogwood). A beautiful native shrub or small tree with large white flowers in early spring. Each \$1.25; doz. \$12.00.

Cornus alba Siberica (Red Barked Dogwood). White flowers, followed by bluish white berries, and bright red bark in winter.
